

Healthy Choices for Canteens

What we choose to eat depends largely on what choices are available. Recreation, sport, community and school canteens provide unique opportunities for children, youth and their families to choose healthy food and beverages.

Let's make a difference by working to ensure all canteens provide healthy choices.

Short on time? No access to kitchen space? No problem! Try these easy grab-and-go items:

- Plain tap water
- Milk
- Raw vegetables (e.g., carrots, pepper strips) served with whole grain crackers and dip (e.g., hummus, salsa, etc.)
- Unsweetened applesauce
- Whole grain cereal bars and granola bars (not chocolate- or yogurt-dipped)
- Plain popcorn
- Fresh fruit - oranges, apples, bananas
- Canned fruit (packed in juice or light syrup), or fruit cups
- Berries – fresh in-season, or frozen (thawed)
- Yogurt, yogurt tubes or yogurt drinks
- Cheese sticks or strings
- Whole grain cereal with milk Tip: open the top of a small milk carton, add cereal and a spoon
- Homemade trail mix – popcorn, wholegrain cereal, dried fruit*
- Whole grain crackers with fruit or cheese

**Use nuts and seeds as well, if your facility does not have an allergy policy for these foods*
